CYMRU
NORTH WEST WALES HEALTH & SAFETY GROUP**

Wednesday 14th May 2014 - 2.00pm – 4.30pm

Small Lecture Theatre, First Floor, School of Electronic Engineering, Dean Street, Bangor LL57 1UT

“Environmental Management and the Built Environment

Richard Bagnall BSc Hons, Environmental Consultant

Wayne Bagnall Consulting

THE TALK

A case study of Richard’s time dealing with Environmental Issues on Major Construction Projects (including Mediacity:UK), and how this has been applied into Environmental Awareness training for Construction and Demolition.

The MediaCityUK project (Phase 1) was a £600M + Project which encompassed 6 major buildings including, commercial, residential, car park, studios and academic, including associated infrastructure (A new Tram stop, landscaped public realm areas, roads and a new bridge over the Manchester Ship Canal) the project at its peak employed over 2000 people per day and had a spend over £1,000,000 per day.

The talk will cover topics such as:

- Land remediation (Asbestos, Japanese Knotweed, Heavy oils etc.)
- Environmental Protection on site
- Working near waterways- the ship canal
- Nuisance & Sensitive Receivers (Noise, Dust etc.)
- Waste Management
- Green Building Schemes
- Environmental issues in demolition

and delivering effective training:

- Environmental issues and how they are delivered – engaging with the workforce – the usual: “Why is this important? Why should I Care?”
- The importance of plain English and focusing on good practice rather than ever changing regulation in awareness courses.

THE SPEAKER

Richard Graduated from Salford University with an Honours Degree in Environmental Management, covering a range of EHS topics from Safety and Environmental Management, to Environmental Health, Management Systems and Environmental Law.

He is a recognised UKATA Asbestos Awareness, and NDTG Demolition Safety Awareness Trainer, and author of an Environmental Awareness Training course for the NDTG (National Demolition Training Group).

He commenced work for Bovis Lend Lease (Now Just “Lend Lease”) as an Environmental & Sustainability Manager, where he had responsibility for the Environmental Management on the £600m+ redevelopment of Salford Quays into “MediaCityUK” the new Northern HQ of the BBC, this was in addition to working with suppliers in the region and overseeing work at Liverpool John Lennon Airport and The Trafford Centre.

He now works for the Family Business; Wayne Bagnall Ltd t/a Wayne Bagnall Consulting providing training for environmental issues to the construction and demolition sectors and practical advice on Environmental and Asbestos related topics to a wide range of clients including the Housing associations, private sector manufacturing and the NHS.

VENUE

The Small Lecture Theatre is on the first floor of Bangor University's School of Electronic Engineering Building (*this building may also be referred to as 'Informatics'*), which is located on Dean Street in Bangor LL57 1UT. The Lecture room is accessible via the main entrance and then follow the directional signs on display.

The University is signposted from the A5/55 Expressway. A location map for the School of Electronic Engineering building can be found at: <http://www.bangor.ac.uk/tour/LocationMap.pdf> position 74.

CAR PARKING

Please be aware that you can access the University Dean Street Car Park by entering the following PIN number: **3269** at the Barrier. This **PIN number** will only work for this Car Park and only on the afternoon of the Talk and should not be disclosed / displayed to other people.

Coming from Garth Road onto Dean Street, the entrance to the Car park is the second access road (unmarked – enters into University premises) on the left opposite the new NCP car park.

Please ensure you park within designated car parking spaces and display your Permit. The Car Parking Permit is printed at the bottom of this Flyer and must be displayed in the front windscreen. The University operates strict *Parking Regulations* and your vehicle may be towed-away immediately if blocking access or pedestrian routes or otherwise causing a health and safety hazard. Vehicles parked without a valid Permit may be immobilized and a cost is associated with its release.

FURTHER INFORMATION

For further Information on the Group please contact 'Health and Safety Services', Bangor University, Penbre, College Road, Bangor, LL572DG Tel 01248 383847, email: lisa.fowlie@bangor.ac.uk or visit the Website at <http://hsgroup.bangor.ac.uk>
