

Wednesday 12th January 2011 - 2.00 – 4.00pm

Main Lecture Theatre, Ground Floor, School of Electronic Engineering, Dean Street, Bangor LL57 1UT

'Business Continuity (or Business Interruption) Management'

Lawrence Bamber

Risk Solutions International

THE MEETING

This meeting is the joint annual meeting between the North West Wales Health and Safety Group, and the IOSH, North Wales branch.

THE TALK / WORKSHOP

Business Continuity (or Business Interruption) Management (BCM) has been part of lost control/risk management since the late 1970s.

The credit crunch and more recently the announced government cutbacks have made companies more vulnerable. A business interruption is potentially a greater risk than before especially for companies without any form of BCM in their armoury.

In plain language, BCM is working out how to stay in business in the event of disaster. Incidents include local incidents like building fires, regional incidents like earthquakes, or national incidents like pandemic illnesses.

The talk will outline:

- Business Continuity in Context
- BS25999: 06/07 Business Continuity Standard
- The Business Continuity Model
- Business Impact Analysis.
- How to Develop a BCM Plan.
- Plan Implementation, Testing and Maintenance
- Crisis Communications and Public Relations

The Talk is based on the IOSH one-day continuous professional development (CPD) course and is aimed at health and safety professionals and managers.

FURTHER INFORMATION

THE SPEAKER

Lawrence Bamber is a Chartered Safety and Health Professional and a Fellow of both IOSH and the Institute of Risk Management. A Past President of IOSH he is currently vice-chairman of the North Wales branch and a member of the IOSH Council and Nomination Committees.

Lawrence runs his own safety/risk management consultancy business -Risk Solutions International -and has clients both in the UK and overseas. He has presented papers at a number of conferences worldwide, and has written many articles on OSH/risk management subjects.

He was born in Rhyl, grew up in Llandudno (John Bright Grammar School) before graduating in chemistry and management at Loughborough University. He then was a founder member of the safety and hygiene group at Aston University, before embarking on a 25 year career in the insurance/risk management industry with companies such as Stenhouse (now Aon) and Norwich union (now AVIVA).

Refreshments will be provided from 2.00pm.
Talk starts at 2.15pm.

GRŴP IECHYD A DIOGELWCH GOGLEDD-ORLLEWIN CYMRU NORTH WEST WALES HEALTH & SAFETY GROUP

VENUE

The Main Lecture Theatre is on the ground floor of Bangor University's School of Electronic Engineering Building (*this building may also be referred to as 'Informatics'*), which is located on Dean Street in Bangor LL57 1UT. The Lecture room is accessible via the main entrance and then follow the directional signs on display.

The University is signposted from the A5/55 Expressway. A location map for the School of Electronic Engineering building can be found at: <http://www.eng.bangor.ac.uk/LocationMap.pdf> position 74.

CAR PARKING

Please be aware that you can access the University Dean Street Car Park by entering the following PIN number **6197** at the Barrier. This **PIN number** will only work for this Car Park and only on the afternoon of the Talk and should not be disclosed / displayed to other people.

Coming from Garth Road onto Dean Street, the entrance to the Car park is the second access road (unmarked – enters into University premises) on the left opposite the new NCP car park.

Please ensure you park within designated car parking spaces and display your Permit. The Car Parking Permit is printed at the bottom of this Flyer and must be displayed in the front windscreen. The University operates strict *Parking Regulations* and your vehicle may be towed-away immediately if blocking access or pedestrian routes or otherwise causing a health and safety hazard. Vehicles parked without a valid Permit may be immobilized and a cost is associated with its release.
